

Are you an adult looking after someone in Essex?

Your guide to support for unpaid carers from 1 April 2024

Essex Wellbeing Service (EWS)

This countywide service provides the opportunity for you to discuss your caring role and receive information, advice and guidance related to your own wellbeing. We work closely with Action for Family Carers and Carers First and will ensure you receive specialist support from them if needed. You may also be eligible for a carers assessment by Essex County Council to assess what additional support, if any, could help you in your caring role.
